MIRCO INCORPORATED
GAMES DIVISION
PHOENIX, ARIZONA

DOUBLE COMPETITION - One or two players can compete for high scores.

During two player action, players compete against the machine for skill and against each other for high points.

EASY TO LEARN - With automatic, accelerating skill features.

CHALLENGING ACTION - Players score by eliminating the blocks in the wall. The blocks disappear as they are hit by the ball. The longer the volley, the more chance of hitting the deeper rows of blocks to score more points. If all the blocks are eliminated, another wall quickly appears for continued action. Automatic ball speed increases, and automatic reflection in paddle size add to the excitement and challenge.

DIMENSIONS - Compact unit measures 32" x 32" x 37" and weighs only 140 lbs. Size permits easy moving to new locations.

Playfield color overlay and bright graphics entice play.

Operator options for number of balls and extended play.

Also available in upright arcade model.

BLOCK BUSTER
